

December 6, 2002

Docket: NHTSA-2002-12065

Title: NASDPTS - Test Results for School Bus Safety Vests (FMVSS 213, 222)

Recommend that NHTSA permanently implement this ruling. The proposal provides for the safety of school children as well as allowing districts to fully utilize scarce resources (school buses). Recent occurrences in this district have demonstrated the reliability of the cam strap and harness/lap restraint system.

This proposal must be made permanent.
